## A BILL

To authorize the Secretary of Education to award grants to eligible entities to carry out educational programs that include the history of peoples of Asian and Pacific Islander descent in the settling and founding of America, the social, economic, and political environments that led to the development of discriminatory laws targeting Asians and Pacific Islanders and their relation to current

events, and the impact and contributions of Asian Americans to the development and enhancement of American life, United States history, literature, the economy, politics, body of laws, and culture, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Teaching Asian Pacific  
5       American History Act”.

6       **SEC. 2. FINDINGS.**

7       Congress finds the following:

8               (1) The United States of America has benefited  
9       from the integral role Asian Americans and Pacific  
10      Islanders have played in our country’s history and  
11      contributions to the world.

12               (2) The Pacific Island Territories of Guam,  
13      American Samoa, and the Commonwealth of the  
14      Northern Mariana Islands have unique histories that  
15      are often overlooked in American history despite  
16      their immense contributions to our Nation.

17               (3) The traditional American K–12 curriculum  
18      continues to be taught from a Eurocentric point of  
19      view and exclude histories of racist immigration laws  
20      relevant to policies today.

21               (4) K–12 social studies textbooks poorly rep-  
22      resent Asian Americans and Pacific Islanders, over-

1 look the diversity within those communities, and  
2 print images of Asian Americans and Pacific Island-  
3 ers in stereotypical roles.

4 (5) The Federal Government, through support  
5 for educational activities of national museums estab-  
6 lished under Federal law, can assist teachers in ef-  
7 forts to incorporate historically accurate instruction  
8 on the comprehensive history of Asian Americans  
9 and Pacific Islanders and assist students in their ex-  
10 ploration of Asian Pacific American history as an in-  
11 tegral part of American history.

12 (6) The history of America's system of immi-  
13 gration is rife with racism, embedded in goals of hir-  
14 ing workers to work for cheaper wages and labor in  
15 heinous working conditions.

16 (7) Congress has continuously passed anti-  
17 Asian laws as the result of the scapegoating of Asian  
18 immigrant laborers for the United States economic  
19 downturns.

20 (8) The history of South Asian Americans in  
21 the United States dates back to the late 1700s.

22 (9) The history of Native Hawaiians and Pa-  
23 cific Islanders in what is now considered to be the  
24 United States predates the founding of our Nation.

1                         (10) In 1993, Congress passed a resolution that  
2                         was signed into law formally apologizing for the  
3                         United States role in the illegal overthrow of the  
4                         Kingdom of Hawaii, which resulted in the suppres-  
5                         sion of the inherent sovereignty of the Native Ha-  
6                         waiian people.

7                         (11) Twelve thousand Chinese laborers worked  
8                         in atrocious conditions to build the Transcontinental  
9                         Railroad, many dying from harsh weather conditions  
10                         and the dangers of handling explosives.

11                         (12) After the Chinese Exclusion Act of 1882  
12                         banned Chinese immigrants from immigrating to the  
13                         United States, Japanese were hired. After the Japa-  
14                         nese were banned from immigrating due to the Gen-  
15                         tleman's Agreement of 1907, which halted immigra-  
16                         tion from Japan, Filipinos were hired under 3-year  
17                         contracts.

18                         (13) Filipino farm workers helped found the  
19                         farm worker labor movement.

20                         (14) The Immigration Act of 1917 restricted  
21                         immigration to the United States by barring immi-  
22                         gration from the Asia-Pacific zone.

23                         (15) The Immigration Act of 1924 set a na-  
24                         tional origin quota to deter immigration.

1                             (16) The Immigration Act of 1965 made family  
2        unification and skills-based migration the bedrock  
3        principle of immigration to the United States.

4                             (17) The United States conducted nuclear test-  
5        ing on the Bikini and Enewetak Atoll of the Mar-  
6        shall Islands have made parts of the island nation  
7        uninhabitable and caused forced migration and  
8        health complications that still impact the community  
9        today.

10                          (18) The United States ratified a Compact of  
11        Free Association with the Federated States of Mi-  
12        cronesia, Republic of the Marshall Islands, and the  
13        Republic of Palau enabling citizens of these Pacific  
14        Island nations to legally migrate to the United  
15        States visa-free while the United States retains cer-  
16        tain strategic military rights over their territorial  
17        waters.

18                          (19) In the aftermath of the Vietnam War, the  
19        Refugee Act of 1980 helped more than 500,000  
20        Southeast Asians gain permanent resident status in  
21        the United States within the first decade of its pas-  
22        sage.

23                          (20) President Franklin D. Roosevelt's Execu-  
24        tive Order 9066 authorized the incarceration of over

1       120,000 persons of Japanese ancestry, two-thirds of  
2       whom were American citizens, based solely on race.

3                 (21) The Pacific Islander community represents  
4       the largest concentration of any ethnic group en-  
5       listed in the United States military, as well as rep-  
6       resenting the highest numbers of casualties in the  
7       current wars on terror.

8                 (22) The “model minority” myth perpetuates  
9       the stigma of Asian Americans as perpetual for-  
10       eigners, and such stereotypes are used to pit minor-  
11       ity groups against one another.

12                 (23) The pattern of hate crimes and hate inci-  
13       dents directed at Asians and Asian Americans has  
14       repeated itself throughout history.

15                 (24) Asian-American and African-American his-  
16       tories of fighting against oppression and racism are  
17       intertwined, from the Black Power Movement of the  
18       1960s that birthed the Asian American Movement to  
19       civil rights protests today.

20                 (25) Asian Americans and Pacific Islanders and  
21       their allies continue to fight discrimination, racial  
22       prejudice, hate crimes, scapegoating, structural rac-  
23       ism, economic inequities, and benign and overt omis-  
24       sion of the integral role they played in the develop-  
25       ment of this country.
